

1. BUCATARIE DREAPTA

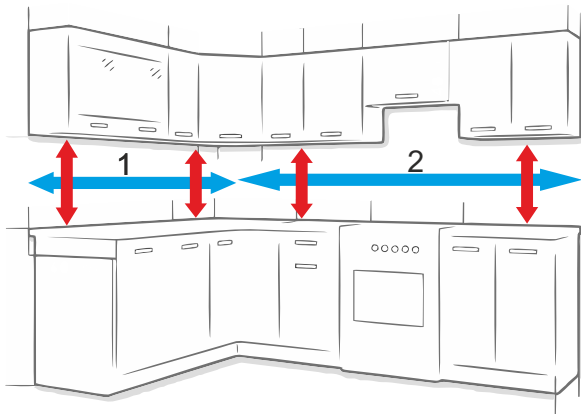

Instructiuni de calculare a dimensiunilor 1 bucata sticla

Latime sticla = Latimea masurata - 4mm

Inaltime sticla = Inaltimea masurata - 6mm

2. BUCATARIE COLT

Instructiuni de calculare a dimensiunilor 2 bucati sticla

STICLA NR.1

Latime sticla = Latimea masurata - 4mm

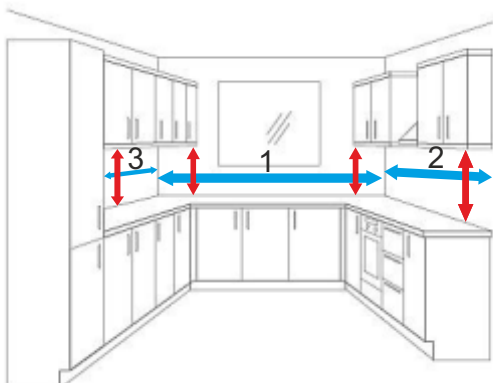

Inaltime sticla = Inaltimea masurata - 6mm

STICLA NR.2

Latime sticla = Latimea masurata - 8mm

Inaltime sticla = Inaltimea masurata - 6mm

3. BUCATARIE tip U

Instructiuni de calculare a dimensiunilor 3 bucati sticla

La fiecare sticla 1, 2, 3

Latime sticla = Latimea masurata - 8mm

Inaltime sticla = Inaltimea masurata - 6mm

*Latimea si inaltimea se va masura in mai multe locuri, se va lua in considerare distanta cea mai mica

DECUPAJ PRIZA

- se va lua jos rama prizei si suportul
- se masoara distanta pana la doza de SUS si in lateral!
- distanta din lateral : se scade 2, 4, respectiv 8mm in functie de tipul bucatariei si pozitionarea lui
